

Product No: 24WK
Description: .24 ga wiring kit for use with the RFFS-100 "push-in" receptacles. Can be used in conjunction with our Litz wire to create longer leads or to terminate the Bob Selman actuators. Includes lengths of balck,white,yellow and blue coated wire.
Weight: n/a
Price: \$2.50

Product No: A-50
Description: 50 ohm coil. Not mounted on board as shown in picture. We recommend using Litz wire for leads.
Weight: N/A
Price: \$7.50

Product No: A-50-t
Description: 50 ohm coil terminated with .24g wire for easy use with the RFFS-100 receiver. Plugs right in to the receiver, no soldering required. Mounted on board for easy installation
Weight: N/A
Price: \$16.50

Product No: Actmag
Description: Magnet used for the Actuator servos. We carry one of the most powerful magnets available for it's size.
Weight: N/A
Price: \$5.00

Product No: ALSP
Description: An aluminium solder paste. Allows you to solder to aluminum using a lighter, soldering iron, or a match. Works great for the aluminum post on the Lithium Polymer batteries. Enough paste to do LOADS of batteries.
Weight: n/a
Price: \$4.00

Product No: BA-50

Description: 50 ohm coil. Comes mounted on board with solder points as shown in picture. We recommend using Litz wire for leads.

Weight: N/A

Price: \$8.50

Product No: BHMagn

Description: Battery Holding Magnet. Allows for a "break away" feature for those unexpected hard landings. Minimizes damage by "ejecting" the weight of the batteries upon impact.

Weight: N/A

Price: \$1.00

Product No: BSDAct

Description: Bob Selman Designs actuator kits. These acutators are designed for mount away from the control surfaces and allows for moving the CG closer to the center of the aircraft. Also provides a method for mounting the acutators inside the fuselage for a more "scale" like appearance. Weight: 2 gms ± 0.5 gm each Resistance: 60 ohms ± 10 ohms Dual output arm

Weight: 2g each 4g for the set

Price: \$27.00

Product No: BSDCH

Description: Bob Selman Designs Lithium Polymer Charger
Charges 1 Lithium Polymer cell
~140 milliamp charge rate (fixed)
2 LED charge status indicators
Needs 12 volt source at 200 milliamp min

Weight: N/A

Price: \$27.00

Product No: CFR020

Description: 48" .020" Carbon Fiber Rod.

Weight: .3g/m

Price: \$1.75

Product No: CFR030
Description: 48" .030" Carbon Fiber Rod.
Weight: .5g/m
Price: \$1.75

Product No: CFR040
Description: 48" .040" Carbon Fiber Rod.
Weight: 1.1g/m
Price: \$2.00

Product No: CFR050
Description: 48" .050" Carbon Fiber Rod.
Weight: 2.1g/m
Price: \$2.00

Product No: CFR060
Description: 48" .060" Carbon Fiber Rod.
Weight: 2.6
Price: \$2.00

Product No: CRYRFFS
Description: 72mhz Crystal for the RFFS-100 receiver. Channels 11-60 available.
Weight: N/A
Price: \$9.00
Please specify channel when ordering.

Product No: DID10R5
Description: Didel 1:5 gearbox kit for 10mm motors. The Didel 10R5 single stage gearbox kit fits the Mabuchi M20 motor or the Didel 10mm pager motor [See assembly instructions](#)
Weight: between 0.5g and 0.75g
Price: \$20.00

Product No: DID10R7

Description: Didel 1:6.6 gearbox kit for 10mm motors. The Didel 10R7 single stage gearbox kit fits the Mabuchi M20 motor or the Didel 10mm pager motor [See assembly instructions](#)

Weight: between 0.5g and 0.75g

Price: \$20.00

Product No: DID10R9

Description: Didel 1:9 gearbox kit for 10mm motors. The Didel 10R9 single stage gearbox kit fits the Mabuchi M20 motor or the Didel 10mm pager motor [See assembly instructions](#)

Weight: between 0.5g and 0.75g

Price: \$25.00

Product No: DID12R5

Description: Didel 1:5 gearbox kit for 12mm motors. The Didel 12R5 single stage gearbox kit fits the Mabuchi N20 motor. [See assembly instructions](#)

Weight: between 0.5g and 0.75g

Price: \$20.00

Product No: DID12R7

Description: Didel 1:6.6 gearbox kit for 12mm motors. The Didel 12R7 single stage gearbox kit fits the Mabuchi N20 motor. [See assembly instructions](#)

Weight: between 0.5g and 0.75g

Price: \$20.00

Product No: DID12R9

Description: Didel 1:9 gearbox kit for 12mm motors. The Didel 12R9 single stage gearbox kit fits the Mabuchi N20 motor. [See assembly instructions](#)

Weight: between 0.5g and 0.75g

Price: \$25.00

Product No: DID6R12

Description: Didel 1:12 gearbox kit for 6mm motors. Didel 6R12 dual stage gearbox kit. [See assembly instructions](#)

Weight: between 0.5g and 0.75g

Price: \$25.00

Product No: DID6R16

Description: Didel 1:16 gearbox kit for 6mm motors. Didel 6R16 dual stage gearbox kit. [See assembly instructions](#)

Weight: between 0.5g and 0.75g

Price: \$26.00

Product No: DID6R21

Description: Didel 1:20.6 gearbox kit for 6mm motors. Didel 6R21 dual stage gearbox kit. [See assembly instructions](#)

Weight: between 0.5g and 0.75g

Price: \$30.00

Product No: DID6R9

Description: Didel 1:9 gearbox kit for 6mm motors. Didel 6R9 single stage gearbox kit. [See assembly instructions](#)

Weight: between 0.5g and 0.75g

Price: \$25.00

Product No: DIDG309-070

Description: Didel G309-70 Pinion Gear.
9 teeth pinion
0.04g
O.D. 18.6
Bore 0.70mm

Weight: .04g

Price: \$1.25

Product No: DIDG309-080
Description: Didel G309-80 Pinion Gear.
9 teeth pinion
0.04g
O.D. 18.6
Bore 0.80mm
Weight: .04g
Price: \$1.25

Product No: DIDG309-098
Description: Didel G309-98 Pinion Gear.
9 teeth pinion
0.04g
O.D. 18.6
Bore 0.98mm
Weight: .04g
Price: \$1.25

Product No: DIDG312
Description: Didel G312 Pinion Gear.
12 teeth pinion
0.04g
O.D. 4.2
Bore 0.78mm
Weight: .04g
Price: \$1.00

Product No: DIDG336
Description: Didel G336 Gear.
36/12 teeth.
O.D. 11.4mm
Bore 0.69mm
Weight: N/A
Price: \$2.60

Product No: DIDG348L
Description: Didel G348L Gear.
48/12 teeth
0.14g OD 18.6 Bore 0.76mm

Weight: .14g
Price: \$4.50

Product No: DIDG360L
Description: Didel G360L Gear.
60/12 teeth.
O.D. 18.6
Bore 0.71mm
Weight: .18g
Price: \$5.00

Product No: DIDG381
Description: Didel G3810L Gear
81/12 teeth
0.34g
OD 18.6
Bore 0.71mm
Weight: .34g
Price: \$8.00

Product No: DIDMK04-10
Description: Didel 4mm Coreless Motor.
1.2V 10 Ohm
O.D. 4mm
Length 12mm
0.7 g
Shaft dia 0.70mm
Weight: .7g
Price: \$2.90

Product No: DIDMK06-10
Description: Didel MK06-10 Coreless Motor
1.2V 10 Ohm
O.D. 6mm
Length 12mm
1.3 g
Shaft dia 0.80mm
Weight: 1.3g
Price: \$2.75

Product No: DIDMK06-30
Description: Didel 6mm Coreless Motor.
2.4V 30 Ohm
O.D. 6mm
Length 12mm
1.3 g
Shaft dia. 0.80mm
Weight: 1.3g
Price: \$2.75

Product No: DIDMK06L-10
Description: Didel 6mm Coreless Motor.
1.2V 10 Ohm
O.D. 6mm
Lengt 15mm
1.5 g
Shaft dia. 0.80mm
Weight: 1.5g
Price: \$2.75

Product No: DIDMK07-10
Description: Didel 7mm Coreless Motor.
1.2V 10 Ohm
O.D 7mm
Length 17mm
2.3 g
Shaft dia. 1.00mm
Weight: 2.3g
Price: \$3.00

Product No: ECM72U
Description: E-Cubed M-72U Micro ULTRA Antenna.
For micro flyers. Can easily fit within built up fuselages.
Eliminates dangling wires. Recommended for use with the
RFFS-100 to reduce the risk of static damage. Note:
Antenna does reduce range by 15%.
Weight: N/A
Price: \$10.00

Product No: FCLGHT

Description: Lightning FF ARF. This all foam FF airplane makes a great conversion for the RFFS-100 system.
[click here for a review/conversion of the RFFS equipped Lightning.](#)
Transmitter not included.

Weight: N/A

Price: \$17.00

Product No: GWS1WHEEL

Description: GWS 1" Wheel. Excellent wheels for micro planes.

Weight: .5g

Price: \$1.25

Product No: GWS2508

Description: GWS 2.5x0.8 Prop

Weight: N/A

Price: \$1.25

Product No: GWS251

Description: GWS 2.5x1 Prop

Weight: N/A

Price: \$1.25

Product No: GWS32

Description: GWS 3x2 Prop

Weight: N/A

Price: \$1.50

Product No: GWS425

Description: GWS 4x2.5 Prop

Weight: N/A

Price: \$1.75

Product No: GWS454
Description: GWS 4.5x4 Prop
Weight: N/A
Price: \$1.75

Product No: GWS53
Description: GWS 5x3 Prop
Weight: N/A
Price: \$1.75

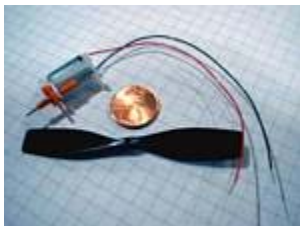

Product No: GWS543
Description: GWS 5x4.3 Prop
Weight: N/A
Price: \$1.75

Product No: GWS63
Description: GWS 6x3 Prop
Weight: N/A
Price: \$1.85

Product No: GWSPA
Description: Prop adapters. Allows props with 4mm diameter hubs to fit 2.0mm and 2.5mm motor shafts.
Weight: N/A
Price: \$2.00

Product No: KPU80
Description: The KP00 and Union 80 Prop have proven to be a versatile combination. Great for use with the 'Lil Skeeter and Guided Mite kits. With the KP00 and three cells the 'Lil Skeeter can climb out at 45 degrees. Combine the KP00 with the new LiPoly batteries and you have a rocket.
Weight: N/A
Price: \$18.00

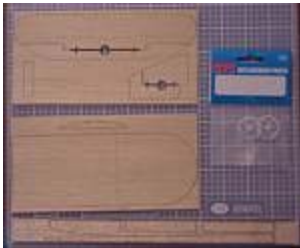

Product No: LGHTRFFSKP00

Description: Combo includes 1 Lightning FF model, 1 RFFS-100 receiverw/xtal, 2 Actuator/Servos, and 1 KP-00 motor. With slight modifications the Lightning makes a great ARF for the RFFS-100. All you need is batteries and a transmitter.

 Transmitter not included.

Weight: N/A

Price: \$155.00

Please specify channel when ordering.

Product No: LILKIT

Description: These Lil' Skeeter laser cut kits make assembly of the Lil' Skeeter easier than it already is. The coil mounting holes and hinge slots are already cut out and allow you to build the control surfaces while still in the sheet giving the perfect alignment and hinge gap required to make the Lil' Skeeter a super flyer. Included are laser cut contest grade balsa, two GWS 1" wheels, hinge material, and music wire for the landing gear.

Weight:

Price: \$12.00

Product No: LILKPRFFS

Description: These Lil' Skeeter laser cut kits make assembly of the Lil' Skeeter easier than it already is. The coil mounting holes and hinge slots are already cut out and allow you to build the control surfaces while still in the sheet giving the perfect alignment and hinge gap required to make the Lil' Skeeter a super flyer. Included in the combo are: 1 RFFS-100 complete system, 1 KP00/U80 combo, laser cut contest grade balsa, 2 GWS 1" wheels, hinge material, and enough music wire for the landing gear.

Weight:

Price: \$150.00

Product No: LP135

Description: 135 mah Lithium Polymer cell.

Max. Voltage 4.2

Min. Voltage 3.0

Max Current 1 amp

Max Charge 1C (135mah)

The newest technology in batteries. This Lipoly cell offers 1/3 the weight of an equivalent Nicad pack with approximately 3x the duration. Combine this cell with the 'Lil Skeeter or the Lightning all foam ARF for a great flying machine.

Chargers for Lithium Polymers are available at www.hobbyclub.com, www.hobby-lobby.com (p/n:POT010), [Bob Selman Designs](http://BobSelmanDesigns.com), or at www.wildrc.com.

Weight: 3.4g

Price: \$9.00

Product No: LP170

Description: 170 mah Lithium Polymer cell.

Max. Voltage 4.2

Min. Voltage 3.0

Max Current 1 amp

Max Charge 1C (170mah)

The newest technology in batteries. This Lipoly cell offers extremely lightweight power supplies. Combine this cell with the 'Lil Skeeter or the Lightning all foam ARF for a great flying machine.

Chargers for Lithium Polymers are available at www.hobbyclub.com, www.hobby-lobby.com (p/n:POT010), [Bob Selman Designs](http://BobSelmanDesigns.com), or at www.wildrc.com.

Product No: LTZ12-ft
Description: 12 turn per foot litz wire. Litz wire is several strands of .40ga magnet wire braided together to make a thicker strand and easier to handle. Makes great antennae and can be used to lengthen coil leads.
Weight: .05g/ft
Price: \$2.00

Product No: MA-50
Description: 50 ohm magnetic actuator set. Includes coil and magnet. We recommend using Litz wire for leads.

Weight: 1g
Price: \$10.00

Product No: MA-50-t

Description: 50 ohm Magnetic Actuator set terminated with .24g wire for easy use with the RFFS-100 receiver. Plugs right in to the receiver, no soldering required. Comes with coil and magnet. Mounted on board for easy installation(board not shown. See A-50 for mounting board example)

Weight: 1g
Price: \$19.00

Product No: RFFS-100

Description: The RFFS-100 system is a three channel (rudder, elevator, and throttle), high resolution, fully proportional 72 mhz receiver. Specify Hitec/Futaba, JR, or Airtronics when ordering

Weight: less then 2g
Price: \$97.00

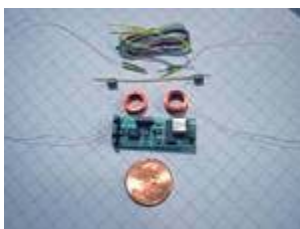

Please specify channel when ordering.

Product No: RFFS-100BS

Description: The complete RFFS-100 system. Included is a 72mhz receiver, Crystal (please specify channel when ordering), wiring kit, hinge material, and a set of Bob Selman Designs remote magnetic actuator servos. The RFFS-100 system is a three channel (rudder, elevator, and throttle), high resolution, fully proportional 72 mhz receiver. Secify Hitec/Futaba,or Airtronics when ordering.

Weight: 5.89 g
Price: \$115.00

Please specify channel when ordering.

Product No: RFFS-100c

Description: The complete RFFS-100 system. Included is a 72mhz receiver, Crystal (please specify channel when ordering), wiring kit, hinge material, and two magnetic actuator servos terminated for easy use with the RFFS-100 receiver. The RFFS-100 system is a three channel (rudder, elevator, and throttle), high resolution, fully proportional 72 mhz receiver. Secify Hitec/Futaba, JR, Or Airtronics when ordering.

Weight: 3.89 g
Price: \$125.00
Please specify channel when ordering.

Product No: RFFSKP00
Description: The RFFS/KP00 combo has proven to be very successful. Combine the two with a Lil' Skeeter airframe and you have a fun plane indeed. The KP00 has proven to be successful on both three celled and two celedl planes. The RFFS provides propotional control a extremely light weights All you need is a plane and batteries..
Weight: N/A
Price: \$140.00
Please specify channel when ordering.

Product No: RFFSKPLP
Description: The RFFS/KP00 combo has proven to be very successful. Combine the two with the new lightweight Lithium Polymer batteris on a Lil' Skeeter airframe and the performance will astound you. The RFFS provides propotional control a extremely light weights All you need is a plane and a charger. (Chargers are available at www.Wildrc.com)
Weight: N/A
Price: \$150.00
Please specify channel when ordering.

Product No: U80P
Description: 8mm Union prop.
Weight: N/A
Price: \$1.50
